Experience:

Flash designer / AS3 animator

Currently working as a freelance or on contract.

I have 7 years web and graphic design experience, and have worked for a large number of clients. I have managed a large number of projects from conception through to completion; on many of them I was the sole designer.

I have produced a vast number of Flash websites, banners and interfaces using ActionScript 2 and 3.

Profile and Skills:

Experienced interactive Flash designer/animator. Specialized in coded and key-frame Flash animation. Combines Graphic Design skills with Flash ActionScripting technical expertise. I also have good knowledge of web standard, object-oriented methodology, HTML, PHP and MySQL, having produced various HTML websites and newsletters.

A hard working person, able to retain focus and a good sense of humor under pressure. Work well as part of a team or independently, with high standards and attention to details and always produce highly professional work regardless of the deadline.

Competent in identifying the necessary measures that need to be taken and then implementing them with absolute focus.

Able to handle a project through the entire process, from concept to completion, and always ready to take up a challenge and to seize opportunities to learn something new.
